OPP wins the Canadian Council for Public-Private Partnerships Award

The Ontario Provincial Police Modernization project is the proud recipient of the National Award for Innovation and Excellence in Public-Private Partnerships. The first public-private partnership of its kind in Ontario, the project bundled several facilities in 16 communities served by the Ontario Provincial Police. The 18 buildings are all designed to achieve LEED Silver certification. They will provide more efficient and effective policing infrastructure, enhancing community safety and supporting Ontario's justice system.
