BIRD CONSTRUCTION INC. ANNOUNCES THAT IT IS CO-LEAD OF A CONSORTIUM SELECTED AS THE PREFERRED PROPONENT TO DESIGN, BUILD, FINANCE AND OPERATE A COMPOSTING FACILITY FOR THE CITY OF CALGARY

LISTING: TSX

SYMBOL: BDT

Bird Construction Inc. announced today that it is part of the Chinook Resources Management Group consortium recently selected as the preferred proponent to design, build, finance and operate a composting facility for the City of Calgary. Bird Capital has a 50% interest in the concession responsible for the design, build, short term financing and operation of the facility. The construction will be performed by Nason Contracting Group (a wholly-owned subsidiary of Bird Construction Inc.) in a 50% joint venture with Maple Reinders Inc. The facility will process 100,000 wet tonnes per year of source separated organics and leaf and yard material as well as approximately 45,500 wet tonnes per year of biosolids. Elements of the project will achieve LEED gold certification. The consortium plans to reach financial close in late June of 2015. Construction activity will commence shortly thereafter with completion by mid 2017. At this time, there can be no assurances that the consortium will receive a contract award related to this project.

Mr. Ian Boyd, Bird's President and CEO, stated that "Bird is very excited to take a lead role at the concession level of the Chinook consortium. This project further demonstrates our commitment to the P3 market as both a design-builder and developer."

In addition, Bird is part of the Two Rivers Lodging Group recently selected by BC Hydro as the preferred proponent for the construction of the worker accommodation facility for the Site C dam site. A contract is expected to be awarded in late summer, with a limited notice to proceed in advance of the contract award.
