Casey House Crew

As originally seen on the [Daily Commercial News](#):

Work is moving along at the Casey House Hospice redevelopment in Toronto.

Bird Construction has been contracted to build and finance the 58,000-square-foot facility that will accommodate 14 private in-patient beds, including two respite beds, office space for home care programs, therapy rooms and community space for a day health program and new spaces for administrative and support services. The new facility will provide more efficient HIV/AIDS health care by consolidating all current programs and services under one roof. The architect for the project is Hariri Pontarini Architects. The owner is Infrastructure Ontario and ZW Project Management Inc. is the project manager.

Consultants are: Entuitive Corp. (structural); ERA Architects Inc. (restoration) and MMM Group Ltd. (mechanical/electrical). Subtrades include: Earthline Foundations & Shoring Ltd. (shoring); Priestly Demolition Inc. Roni Excavating; Valentine Underground Services Ltd. (site works); Alliance Forming Ltd. (concrete forming); Mansteel Rebar Ltd.; Clifford Restoration Ltd.
